Hydrogen Inhalation Therapy

The Best Antioxidant for your Health

No anti oxidants currently available can compare with the properties of Molecular Hydrogen (H₂) as the most recent and effective molecule to fight oxidative stress. Not only is it effective, H₂ also has no unsafe byproducts (zero toxicity) and no adverse side effects. Hydrogen is odourless, colourless, and tasteless; and thus inhalation therapy is non-intrusive, is imperceptible to your immediate senses, and can actually be calming during a session.

Molecular hydrogen has a well known ability to reach the nucleus and the mitochondria, producing unique cell-modulating effects which affect healthy gene expressions, cell metabolism and cell signalling in a very positive way, with anti-obesity, anti-inflammatory, anti-allergy anti-aging and performance enhancement effects.

Benefits of Hydrogen Absorption Inhalation and Infusion

- Enhanced cognitive function
- Reduces fatigue
- Anti-aging, human skin loves it
- Battles immune system illnesses
- Reduces pain and inflammation
- Rectifies DNA damage
- Battles sensitivities and allergies
- Reduces fat, cellulite and wrinkle
- Restores youthfulness
- Regulates blood circulation and peripheral circulation
- Helps with quicker sports injury recovery
- Slows down free radical damage
- Helps flush heavy metals from our bodies
- Boosts mitochondria function
