**Major Auto Haemo-therapy:** MAHT is used to treat a variety of conditions, such as chronic pain and inflammation, arthritis, various bacterial & viral infections, revascularisation of dead or dying tissues, and presently is even being studied as a potential treatment for cancer. The role of MAHT in revascularising Ficat grade 2 to 4 AVN, especially the current post covid menace is revolutionary.

Few practitioners have even found remarkable success in septicemia, HIV-AIDS, Dengue, and other conditions as ozone is one of the most powerful agent against bacteria, virus, fungi, parasites, helminths, known to us and MAHT is the best way to deliver ozone.

**UVBI: Ultra Violet blood Irradiation:** Ultraviolet rays actually interact with oxygen and produce ozone in stratosphere. UV light of around 245 wavelength is in itself a powerful agent against microbes, viruses, parasites, fungi, etc. Drawing the patients blood, subjecting it to UV lights and transfusion back is widely practiced the world over, but very few centres perform MAHT and UVBI together.

IAOS is proud to announce the worlds first patent pending, UVBI MAHT system at very affordable prices.

1

## Ozone MAHT kit with SS diffusers and latex free transfusion sets

Major autohaemotherapy is the procedure where 50 ml of patients blood is drawn, and perfused with 50 to 60 ml of 70 micrograms percent ozone. This bubbling diffused ozone makes the blood cherry red. The ozonated blood is now retransfused back to the patient. There are a wide set of indications for MAHT procedure which are described in detail in the book and course lessons.

IAOS MAHT bottles are made out of medical grade flint free borosilicate glasses with stainless steel diffuser pipes to make highest compatibility ozone MAHT bottles in the world. These bottles are equipped with 90% vacuum and hence capable of drawing 50 to 60 ml blood and perfusing it with an additional 50 to 60 ml of 70 micrograms ozone.

**\*World's first 200 ml MAHT bottles with 96% vacuum and SS 316 I diffuser!\***

**5 bottles, 5 special latex free specially manufactured ozone compatible transfusion sets, one 50 cc syringe, three bivalves, safe packing with courier Rs 8000/-**

**GST 18% for bill.**

**\*World's first 200 ml MAHT bottles with 96% vacuum and SS 316 I diffuser!\***

**10 bottles, 10 special latex free specially manufactured ozone compatible transfusion sets, one 50 cc syringe, three bivalves, safe packing with courier Rs 15000/-**

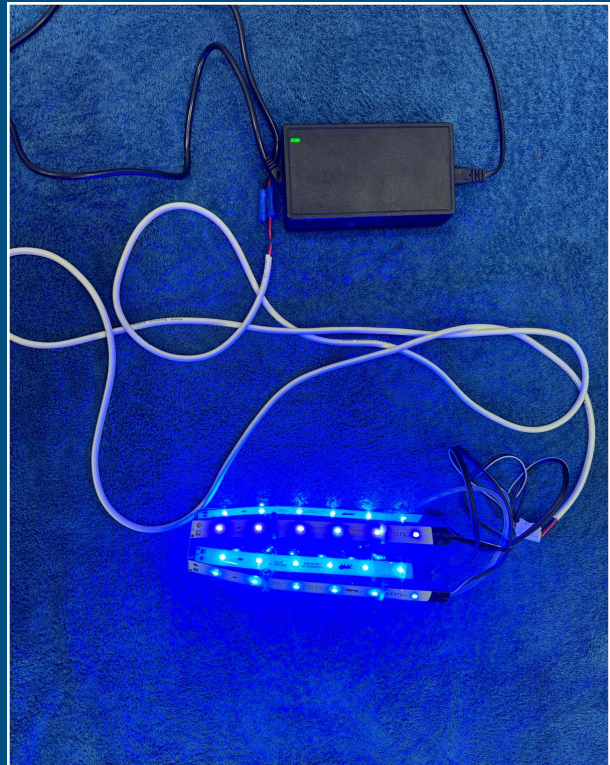

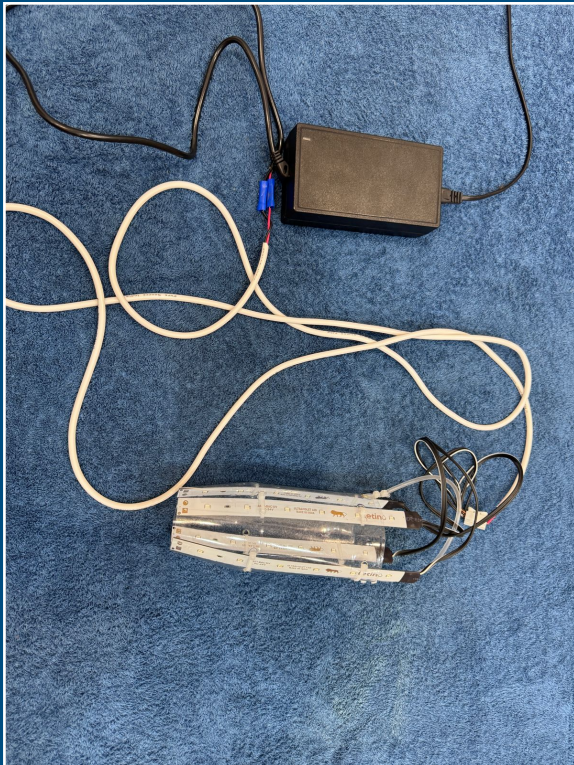

**GST 18% extra for bil.**

**\*World's first UVBI system and MAHT bottle holder with 360 degree UV penetration!\***

**Power unit, hanger with attached UV strips Rs 12000/-**

**GST 18% extra for bil.**
